RE: Resource Conservation and  
Recovery Act Compliance Inspection  
EPA I.D. #CDD045046741

Dear Mr. Green:

This letter is a follow-up to the inspection performed at General Motors Parts Division on July 5, 1983, to determine compliance with the regulations pertaining to the management of hazardous wastes.

Based on this inspection, it appears that the portion of the facility observed was in compliance at that time with Federal requirements for small quantity generators (40 CFR 265.1). This letter shall not, however, constitute a bar to later enforcement actions arising from conditions existing during the inspection which were not observed by the inspectors. Please note also that for every source subject to environmental regulation the facility has a continuing responsibility to meet and maintain compliance with all applicable statutory and regulatory requirements.

This inspection confirms the withdrawal of your Part A as a hazardous waste generator due to the fact that your facility does not generate any wastes.

Your cooperation with this inspection effort is appreciated. If you should have any questions, please contact Ken Bell at (303) 837-6258.

Sincerely yours,

David S. Kircher, Acting Chief  
RCRA Compliance Section
